

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

# LIBRARY RULES.

## CHAPTER III.

### *Use of the Library.*

ART. 1.—Any inhabitant of the town of Everett thirteen years of age and upwards, who shall sign an obligation to observe all existing rules and regulations of the Library and all that may be subsequently adopted, shall have free right to take books therefrom, so long as such person shall comply with the same.

ART. 2.—No person shall be allowed more than one volume at any one time. Books may be kept out of the Library fourteen days, unless otherwise specified in the rules placed on the book. The fine for the retention of any volume over the time above specified shall be two cents for every day so retained.

ART. 3.—Any book retained two weeks beyond the time prescribed by the regulations, shall be sent for by the Librarian, and all expense shall be paid for by such delinquent.

ART. 4.—Persons applying for books must observe perfect order, or they will be refused. Any person making a disturbance in the Library or Reading Room by loud conversation or otherwise, may be excluded therefrom.

ART. 5.—Books must not be lent out of the household of the borrower, nor should cards be lent; and transfers and use of books as text-books are absolutely prohibited, provided, however, that the Library Committee may, in their discretion, to facilitate the use of the Library by the pupils in the Public Schools, make special provisions applicable to the use of books by pupils and teachers.

ART. 6.—No book returned can be taken out again by the same person if any other person has previously lodged an application for the same.

ART. 7.—Borrowers finding books mutilated or unwarrantably defaced are expected to report it; and also any undue delay in the delivery of books.

ART. 8.—No claim can be established because of the failure of any notice to or from the Library through the mail.

ART. 9.—All injury to books beyond a reasonable wear and all losses shall be made good to the satisfaction of the Library Committee by the person liable.

ART. 10.—Books of reference and those deemed by the Library Committee unsuitable for general circulation shall not be loaned from the Library, but the former may be consulted in the Reading Room whenever the Library is open.

## CHAPTER IV.

The Library will be open for the distribution of books on every afternoon and evening from two until half-past eight o'clock, excepting on Sunday and Monday and legal holidays.

The Library will be closed annually two weeks in August.
